2007 Trapiche Torrontes

On the nose I found orange sherbet, flowers, honeysuckle, lemon zest, and spice. I didn't find the nose on this one as aromatic as I've come to expect from Torrontes, but I enjoyed the orange sherbet notes. In the mouth I got sharp citrus, apple, lemon, lemon ice, spice, sharp lemon, and lemon sweet tarts (the candy). As you can probably tell, the palate showed mostly lemon and variations of lemon. I found the mouth to be a lot sharper with more citrus than I expected based off the nose.
